Springer Road Traffic Calming Workshop

Tuesday, June 17, 2014
6:00 - 8:00 PM
Hillview Community Center Multipurpose Room
97 Hillview Ave Los Altos, CA

The City of Los Altos is hosting a community design workshop to develop a traffic calming plan for Springer Road. Please attend to provide feedback on possible solutions.

The City of Los Altos would like to hear your concerns and feedback regarding traffic calming measures on Springer Road between Foothill Expressway and the City boundary at Hollingsworth Drive to help reduce speeding. This workshop invites the community to get involved by sharing local concerns and ideas for improving traffic safety on Springer Road.

At this workshop you will:

- Learn about traffic calming and explore different tools or improvements from the City of Los Altos Collector Traffic Calming Plan that may be used to reduce speeding on Springer Road
- Share local knowledge and any concerns you may have regarding street safety with the project team
- Collaborate with fellow residents to design a traffic calming plan for Springer Road

Project Location:
Springer Road between Foothill Expy & City Limits

Resident participation is essential,
so please join us on June 17 to create a traffic calming plan for Springer Road!

SLOW DOWN

For more information about this project please contact Cedric Novenario, Transportation Services Manager at 650-947-2626 / cnovenario@losaltosca.gov or visit the City's website at http://www.losaltosca.gov/publicworks/page/transportation-services
