AGENDA ITEM # 2

TO: Environmental Commission

FROM: J. Logan, Staff Liaison

SUBJECT: Environmental Public Information Forums

RECOMMENDATION:

Review and discuss opportunities, topics and methodology for public education and outreach

BACKGROUND

The Environmental Commission 2013/14 Work Plan, Goal 1, is to provide community education outreach activities in accordance with the Council goals to advance natural resource conservation and environmental quality in Los Altos.

The Commission determines topics and opportunities for approved public forums related to sustainability. An example of public outreach activities were public forums held prior to the award of the waste disposal contract and a study to determine both Municipal and Community Green House Gas emissions for the City. Current outreach efforts include the design and analysis of a survey to the community to facilitate and gain public input for the Los Altos Climate Action Plan in coordination with the Climate Action Plan consultant firm and with the Community Development Department. An additional topic is single-use bags and issues involved with polystyrene products.

DISCUSSION

The Environmental Commission held a public forum on recycling, diversion and composting on February 22, 2014. The Commission is continuing discussion regarding community education and outreach activities for the Climate Action Plan (CAP).

To that goal, a Commission subcommittee is exploring topic ideas and approaches on additional ways to engage the public via education and information forums, various outreach mechanisms. The subcommittee will guide this discussion.

The subcommittee is currently composed of Environmental Commission members Zahra Ardehali, Vice Chair Chris Keller and Chair Gary Hedden. They will present an update to the public education and information outreach plan.
