AGENDA ITEM # 4

TO: Public Arts Commission

FROM: Jon Maginot, Staff Liaison

SUBJECT: Discuss next steps for the Los Altos Bike Rack Design Competition

BACKGROUND

The Public Arts Commission (PAC) recently requested submissions for the Los Altos Bike Rack Design Competition. Submissions were due to the City on November 23, 2015. The City received 73 entries which were displayed at the Main Library. Members of the public submitted their choices for designs to be installed in Los Altos.

DISCUSSION

At the January 28, 2016 PAC meeting, a jury consisting of the PAC and members of the public prioritized the seven designs to be considered for placement. At its, February 25, 2016 meeting, the PAC recommended moving forward with manufacturing and installation of six racks.

Attachments:

1. Racks to be installed with design specifications
2. Manufacturer color options

@LosAltos

The "@" symbol today is iconic for things related to modern electronic communication. As an art form, the @ symbol was inducted into the Museum of Modern Art in their permanent collection. It communicated "elegance, economy, intellectual transparency, and a sense of the possible future directions that are embedded in the arts of our time."

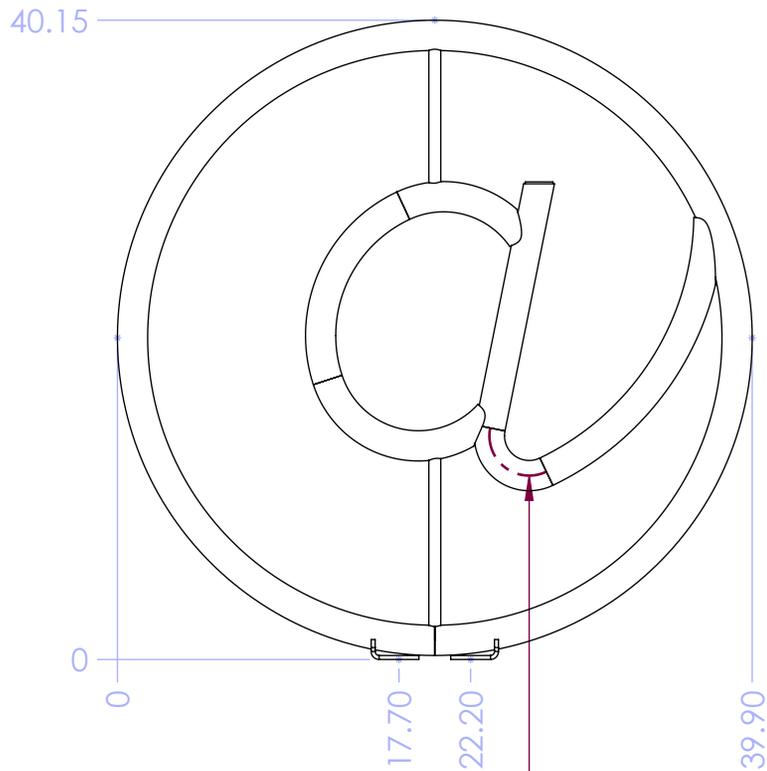

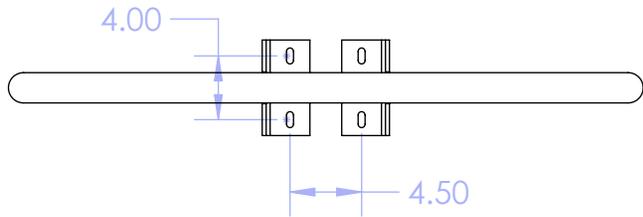

For these reasons, the @ symbol seemed appropriate use for the bike rack competition merging art and the technological roots of many bay area tech entrepreneurs.

Specifications:

- Two bicycle rack using both sides.
- Size: 40"l x 2.5"w x 40"h
- 2 1/2" square steel tubing. Weld at joints (or fabricator recommendations)
- Stainless finish
- Underground mount.

Ice-Cream O licious!

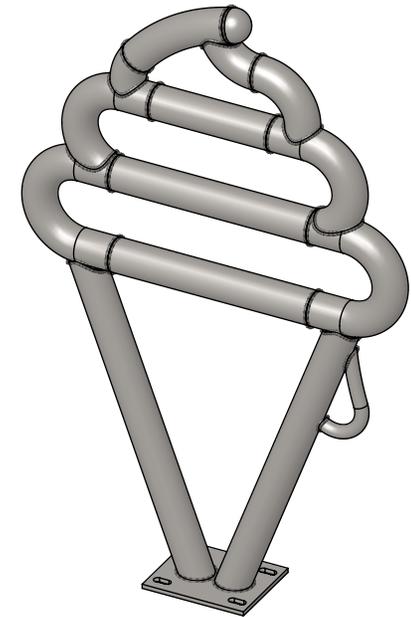

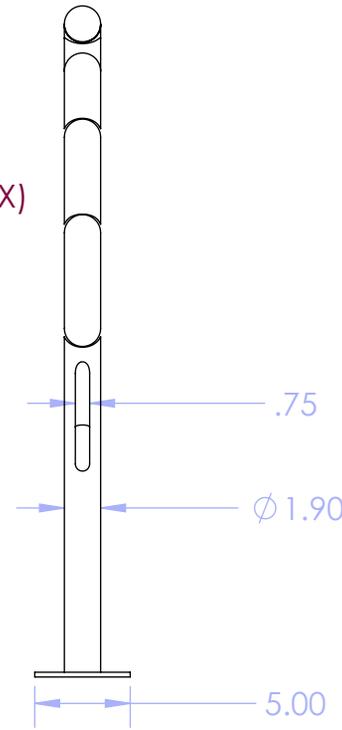

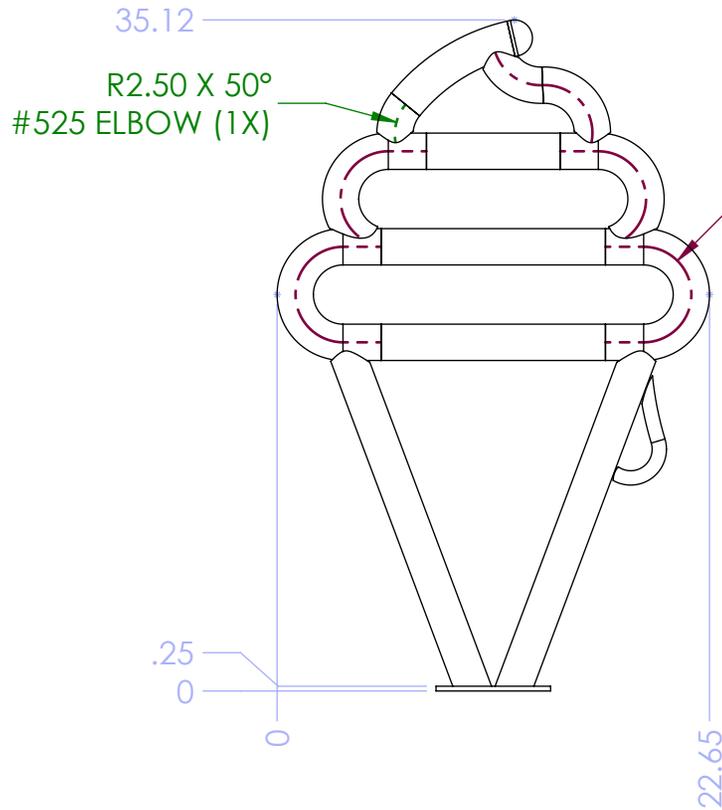

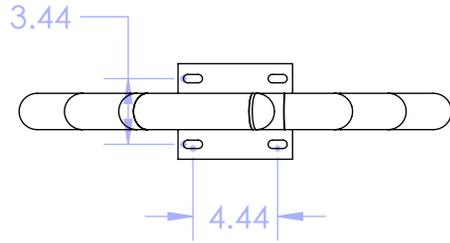

Who doesn't like ice cream! It's one of those year-round delights enjoyed by children and adults alike. It represents summer fun, birthdays or special celebrations. I chose the color pink for the classic ice cream flavors strawberry, or pink peppermint. It's hard to eat ice cream without the occasional drip that runs down your cone pooling to the base. This is for all those ice cream shops in town, and previous ones from a not too distant past, like Clint's on First Street, and Shaw's that once graced Main Street.

Specifications:

- Two bicycle rack using both sides.
- Size: 32"l x 12"w x 56"h
- Material: 2 3/8" steel tube
Drips / pool: .25" steel plate
- Color: Powder coat:
-Pink RAL 4003 and brown RAL 8001
- Underground mount

Standard Powder Coat Colors

TGIC Powdercoat Finish

We offer over 250 high quality TGIC powder coated colors and specialize in matching color schemes. Our powdercoat finish starts with a sandblast treatment which cleans and etches the steel surface. An epoxy primer is electro-statically applied to ensure excellent adhesion to the base steel, and to protect the steel against corrosion and scratches. A final TGIC powdercoat is electro-statically applied and baked on to give the rack the final color and an additional layer of protection.

These swatches are approximate only. Colors look different on different printers and computer monitors. If your color match is critical, please request actual powder coated color samples.
