

DATE: February 24, 2014

AGENDA ITEM # _1_

TO: Senior Commission
FROM: Greg Milano, Recreation Supervisor
SUBJECT: Senior programs and facilities

RECOMMENDATION:

Identify preferred senior program and facility elements for consideration in the Community Center planning process

DISCUSSION

Chair Pelham and Commission member Mathur have conducted initial research into best practices for senior programs as well as what other local municipal and non-profit programs offer to their senior residents/participants. Additionally, they have met with representatives of El Camino Hospital to discuss senior needs assessment activities and results that institution has recently gathered.

In anticipation of the February 26 Joint Commission meeting regarding the Los Altos Community Center, the attached materials provide background and potential ideas to consider as priorities for the senior program element of services to be planned for and provided in the new community center.
