Combo Back Water Valve (BWV) with Relief Valve (RV) outlets

Backwater valve and combo cleanout/relief valve shall be protected and serviceable in Christy box or yard box. Cleanout shall be labeled to indicate “backwater valve downstream” per C.P.C. 710.1

All new, repaired, or altered building sewers shall be protected from backflow of sewage by installing an accessible backwater and relief valve. Building sewers shall have a relief valve installed upstream of the backwater valve outside the building in close proximity to the foundation. Cleanouts shall be labeled “backwater valve downstream”.
