

DATE: July 27, 2016

AGENDA ITEM # 3

TO: Bicycle/Pedestrian Advisory Commission

FROM: Cedric Novenario, Staff Liaison

SUBJECT: Bicycle Transportation Plan

RECOMMENDATION:

Recommend a subcommittee to review and make recommendations to update the Bicycle Transportation Plan (BTP)

BACKGROUND

The Bicycle Transportation Plan was identified in the 2015 and 2016 BPAC work plan for review and update. The BTP was adopted in 2012 and was developed by the City with consultation from Alta Planning + Design.

DISCUSSION

Staff recommends forming a subcommittee to assist staff in reviewing the content and projects in the BTP. The subcommittee will assess if the existing content is consistent with current bicycle infrastructure, education, and safety practices, to name a few. The subcommittee will also review the existing projects list for revisions, if any. The subcommittee will make periodic reports to the commission and a final recommendation at the end of their work.
