AGENDA ITEM # 4

TO: Hillview Community Center Project Task Force

FROM: J. Logan, Hillview Community Center Project Task Force Process Liaison

SUBJECT: Task Force and community exercise: ranking of conceptual architectural / landscape images

BACKGROUND

After discussing architectural and landscape design, Noll & Tam will lead the Hillview Community Center Project Task Force (TF) and the public through an interactive exercise.

DISCUSSION

Noll & Tam will provide conceptual architectural and landscape images and discuss their elements and characteristics. Following this discussion, Task Force members will be asked to rank a series of images based on their preferences and the public will be invited to do the same. Noll & Tam will debrief the TF and identify the key elements identified during the exercise.

The information gathered during this exercise will lead to development of a community survey to gather additional feedback from community members on their architectural and landscape preferences. That survey is expected to be posted on Open City Hall (www.losaltosca.gov/OpenCityHall) the week of October 23, 2017. Noll & Tam will use the data that is gathered to refine their architectural and design ideas in advance of the next Task Force meeting scheduled for November 7, 2017.
