Los Altos Community Center

<u>OWNER</u>

City of Los Altos Donna Legge Manuel Hernandez Peter Maslo James Sandoval

ARCHITECT

Noll & Tam Architects, Inc. Janet Tam James Gwise Dora Pollak Gavin Ross Trina Goodwin

<u>GENERAL</u> <u>CONTRACTOR</u>

Gonsalves & Stronck Construction, Inc. Keith Gonsalves Ken Gendotti Lance Zurfluh Craig Muhlenhaupt Kyle Walker Melanie Rivera

CONSTRUCTION MANAGER

Nova Partners, Inc. David Marks Joe Capps-Jenner Saul Flores Sam Tooley The Los Altos Community Center will support play, learning and community gatherings and will be configured to maximize connections to existing amenities on the Civic Center campus and downtown.

The building will contain modern amenities, be sustainably designed and provide facilities that are both adequate and useful to the community. The architecture will be inviting and showcase the unique character of the City of Los Altos, with the building located in a beautiful park-like setting.

Project Summary

The Hillview Community Center located at 97 Hillview Avenue, Los Altos was constructed in the 1940s and 1950s as an elementary school and has served as a community center since 1975. The buildings were originally constructed as wood-frame and steel structures and had undergone numerous additions, renovations, and upgrades over more than 70 years. The scope of this project is to demolish the existing 30,362 square-foot community center, re-designing the site, retaining 71 existing trees, and constructing a new one-story 24,500 square-foot community center building occupying a location at the north end of the present community center site. Pedestrian pathways and crosswalks will be provided throughout the site to connect the parking lots and existing sidewalks to the new buildings, recreational facilities, and existing buildings surrounding the site such as the History Museum and Library. The driveway connections to Hillview Avenue will be realigned, with a total of two driveway connections rather than the existing four driveway entrances. The site will function more efficiently and provide a better connection to the existing buildings within the Civic Center.

The construction phase of the project began with bidding and subsequent City Council approval of the construction contract in July 2019. The project budget approved by City Council for the entire project is \$38,335,400 which includes all soft costs, hard costs and furniture for the new building.

The construction work is being performed by Gonsalves & Stronck Construction Company, Inc. Demolition of the site began in September 2019 and the buildings were demolished in October 2019. Through February 2020, installation of interior mechanical systems, electrical systems, and drywall is continues. Windows installation is progressing throughout building. On the exterior, progress continues on the building exterior and parking lots, grading, and sitework are continuing.

In accordance with the shelter-in-place order issued by Santa Clara County, on March 31, 2020, in response to COVID-19, work on-site was suspended until the revised County order on April 29, 2020. Work resumed, with new health and safety requirements, on May 4, 2020. Following a confirmed cased of COVID-19, the site was voluntarily closed for sanitization on September 11, 2020 and reopened September 15, 2020 in accordance with the contractor's protocols.

The original November 25, 2020 substantial completion date reflected in the bid will be extended. Substantial completion is currently anticipated in May, 2021. The completion date may continue to be adjusted as impacts from COVID-19 are realized. For more details on the budget and schedule, see pages 9 & 10 and Appendices A & B enclosed.

Activities Summary

February 2021 Activities:

Construction activities performed by Gonsalves & Stronck Construction include:

- Continued implementation of COVID-19 health and safety plan protocols in accordance with Santa Clara County.
- Continued installation of mechanical ductwork and plumbing.
- Installation of commercial kitchen equipment.
- Installation of millwork and finishes.
- Continued electrical and drywall installation.
- Paving at main entrance parking lot.

Upcoming Activities:

During March 2021, Gonsalves & Stronck Construction expects to perform the following activities:

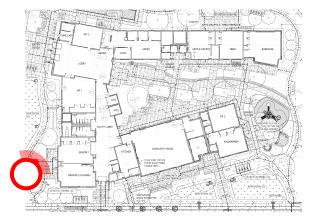

- Continued COVID-19 implementation of health and safety protocols in accordance with Santa Clara County.
- Installation of finished flooring materials.
- Installation of ceiling finishes.
- Install building exterior finishes: cement board, plaster, and cedar siding.
- site sidewalks.

A detailed construction schedule is included in Appendix B. Please note, further adjustments may be required due to COVID-19 and other unforeseen circumstances.

21	Substantial Completion	11	4/23/21	5/4/21		
22	Temporary Certificate of Occupancy	24	4/6/21	4/30/21		
23	Furniture Move-in	23	5/4/21	5/27/21		
24	Final Occupancy	13	5/27/21	6/9/21		

To date, four issues have been encountered that delayed progress:

- 1. PG&E delay in capping off the gas line in the street delayed progress by **7 working days**.
- 2. Unforeseen below-grade conditions encountered during demolition delayed progress by an additional **7 working days**.
- 3. Due to the COVID-19 Pandemic, the construction site was closed between March 30, 2020 and May 4, 2020. Ongoing impacts to construction productivity, material and equipment fabrication, deliveries, manpower availability, and external organizations such as Cal Water, PG&E, Santa Clara County Fire Department that are required for reviews and inspections, are all being impacted. Schedules are being evaluated and adjusted in accordance with the construction contract.
- 4. Following a confirmed case of COVID-19, the site was voluntarily closed for sanitization on September 11, 2020 and reopened on September 15, 2020 in accordance with the contractor's protocols. This closure resulted in a delay of **2 working days**.

Dates, durations and sequence indicated for each activity are subject to a variety of factors including weather, construction timing, and phasing of the construction and may be adjusted as the project progresses. The baseline schedule assumes 20 weather delay days. Accordingly, rain days do not pushout the overall completion date. The project has encountered 8 inclement weather delay days to date. The substantial completion date is currently anticipated to be May, 2021, and the completion date may be further revised as impacts related to COVID-19 are experienced, evaluated, and addressed. A detailed construction schedule is included in Appendix B.

The original contractual completion for the project was 450 calendar days from Start of Construction date, with anticipated Completion in November, 2020. Currently, executed change orders have extended the contract duration 19 days. A contract extension to address delays due to COVID-19 is under negotiation.
