---

Dear Mayor Fligor and Councilmembers,

As a community we have an obligation to build an inclusive community and help those with the least resources. I hope that you will endorse the Santa Clara County Community Plan to end Homelessness.

The number of unsheltered persons living in Los Altos at last count (2019) was 76, which was a very significant increase since the last count in 2017. Since the housing crisis continues in our region, we can only expect this number to grow, and it is important to take proactive steps, such as creating supportive housing and housing for the very-low-income. 330 Distel Circle is a great step forward, and I appreciate the Council's work and support for that project.

Los Altos must do its part to create safety nets for the most vulnerable, especially in a city with so many resources. I hope that you will formally endorse this Community Plan.

Thank you,  
Daphne Ross
