Subject: Support Project at 1583 Landell Ct

Dear Ms. Davis,

We are writing to support the project at 1583 Landell

Ct: http://www.losaltosca.gov/sites/default/files/fileattachments/design_review_commission/meeting/8781/16-v-10_and_16-sc-14_1583_landell_court_staff_report.pdf

We reviewed the reasons why the residents are seeking a variance and it only seems fair that the variance for both first and second floors should be approved given the history of the communications and assurances given to the property owners. It also looks like they have done a good job in making sure that all their nearby neighbors are comfortable with their design, which is more than what most residents would do. So we hope that their request will be approved and that they can move ahead with their plans.

Thanks.

Maria Cid and Alfredo Hernandez
