PUBLIC HEARING

2. 17-V-07 and 17-SC-28 – S. Rangunthan – 2046 Kent Drive

Variance and Design applications to substantially rebuild the house and add to the first and second story, including a variance to maintain a rear yard setback of approximately 23 feet for the first story, where a minimum of 25 feet is required; and design review to add approximately 400 square feet to the first story and approximately 1,390 square feet to the second story. *Project Planner: Golden* This item was continued from the December 20, 2017 DRC meeting.

Senior Planner Golden presented the staff report, recommending approval of variance and design review applications 17-V-07 and 17-SC-28 subject to the listed findings and conditions.

Project applicant/owner Sriram Rangunthan presented the project and noted how the project had been updated to address the Design Review Commission's direction.

Public Comment

Neighbor Jerry Shaw expressed concerns about the revised design because it still blocked views from his property, noted that the roof pitch should be further reduced and opposed the granting of a rear yard setback variance.

Neighbor Paul Leo said that he concurred with Jerry Shaw's comments.

Neighbor Pam Pallakoff stated it was hard to understand the size of the house, that the project will tower over the street, and that a house this large will set a precedent.

Neighbor Stanley Quan expressed concerns about privacy impacts, said no variance should be approved and that the project should not be able to block existing views.

Project applicant/owner Sriram Rangunthan provided a rebuttal stating that he made attempts to contact adjacent property owners and received no response, that the proposed height is reasonable and could provide translucent window for second story east side elevation window.

Action: Upon a motion by Commissioner Moison, seconded by Vice-Chair Harding, the Commission approved variance application 17-V-07 and design review application 17-SC-28 per the staff report findings and conditions, with the following additional condition:

- The second story east facing bathroom window shall be translucent.
