Ellie - we are owners of 50 Marvin Ave.

We oppose this plan. One of the primary reasons Los Altos is what it is today, is because of the decisions made in the past to preserve the pristine village nature of the community. While some development is obviously needed, the encroachment of land and minor variances here and there impact the community quite negatively.

Many of these dwellings get rented or sublet etc and given the detached nature, we are not sure how it adds to the community or even the living lifestyle of the residents or owners.

We strongly oppose this.

Thank you.
