**Subject:** Variance Request by Rick Loretz Construction

My name is Dan McDaniel and I live at 1250 Petersen Court, Los Altos. The requested variance is for a ADU on the property next door to me. I have no objection to the proposed construction As a matter of fact, it will probably cause my property to increase in value.

**Subject:** Project at 1251 Petersen Court

Dear Mr. Gallegos,

I am writing about the proposed ADU at 1251 Petersen Court. My wife and I received the postcard in the mail about the project (we live at 1211 Lisa Ct) and went over to the site to take a look. The owners of the home were there, so we spoke to them for a few minutes. They told us about their plans to build this ADU so they could live in it and their adult daughter (I think), spouse, and grandchild would be able to live in their existing house.

We think this is fantastic, and this type of use is exactly why the ADU ordinance was approved in Los Altos. We see no impact on neighbors with this plan as well, as the setbacks are defined in a rather odd way because of the layout of their lot.

Again, we strongly approve of this project.

Sincerely,  
Dean Samos and Elaine Haight  
1211 Lisa Ct.  
Los Altos 94024
