AGENDA ITEM # 2

TO: Environmental Commission

FROM: J. Logan, Staff Liaison

SUBJECT: Consider a community environmental survey

BACKGROUND

The Environmental Commission conducted an Environmental Interest Survey at the July 10 and July 24, 2014 Farmers' Market. The interests of the community were surveyed with the intent to determine what topics would be the focus of public education and outreach efforts through public information forums.

DISCUSSION

The Environmental Commission will discuss and consider if an Environmental survey would be a project to be undertaken.

AGENDA ITEM # 4

TO: Environmental Commission
FROM: J. Logan, Staff Liaison
SUBJECT: Environmental public information forums

RECOMMENDATION:

Review and discuss opportunities, topics and methodology for public education and outreach

BACKGROUND

The Environmental Commission 2014/15 Work Plan, Goal 1, is to provide environmentally relevant information to the community to improve sustainability in accordance with the Council goals to advance natural resource conservation and environmental quality in Los Altos.

The Commission determines topics and opportunities for approved public forums related to sustainability. An example of public outreach activities were public forums held prior to the award of the waste disposal contract and a study to determine both Municipal and Community Green House Gas emissions for the City. Current outreach efforts include the design and analysis of a survey to the community to facilitate and gain public input for the Los Altos Climate Action Plan in coordination with the Climate Action Plan consultant firm and with the Community Development Department. An additional topic is single-use bags and issues involved with polystyrene products.

DISCUSSION

The Environmental Commission held a public forum on recycling, diversion and composting on February 22, 2014. The Commission is continuing discussion regarding community education and outreach activities for the Climate Action Plan (CAP).

To that goal, a Commission subcommittee is exploring topic ideas and approaches on additional ways to engage the public via education and information forums, various outreach mechanisms. In addition, the Commission seeks to explore with the public via a survey which topics would be of interest and ones they would participate in to gather further information.

The subcommittee composed of Commissioner Ardehali, Vice Chair Chris Keller and Chair Gary Hedden presented an update to the public education and information outreach plan. A public interest survey was created by Commissioner Eyre and vetted with Councilwoman Val Carpenter and staff to assess City of Los Altos residents' interest in environmental topics. The survey was conducted at the July 10 and July 24 Farmers' Market. The July 10th and July 24th results and commissioners' observations will be discussed
