

DATE: May 9, 2016

AGENDA ITEM # 2

TO: Environmental Commission

FROM: J. Logan, Staff Liaison

SUBJECT: Receive presentation from Public Works Director Susanna Chan related to stormwater management

BACKGROUND

Stormwater management is under review by the Public Works Department and is a goal on the 2016/17 Environmental Commission Work Plan. At the April 19, 2016 Joint meeting with Council, it was determined that the Environmental Commission could provide support and resources on this topic and should collaborate with staff specifically on the incorporation of green infrastructure principles with respect to the City's shoulder paving policy as its effect on stormwater management.

At its April 26, 2016 Council meeting, Council adopted the Stormwater Master Plan and encouraged involvement of staff and the Environmental Commission to seek policy determinations for use of green infrastructure principles in the shoulder paving policy.

DISCUSSION

Public Works Director Susanna Chan will present a report and engage in discussion with Commissioners to determine collaborative efforts whereby the Commission can provide timely support and resources specifically aimed at the shoulder paving policy.
