Village Park	<p>I like the scuplters.</p> <p>The statue is cool. And it is near downtown. It's pretty.</p> <p>I enjoy it's location as it is near the public library and Hillview Community Center, compromised with the fact that it is a beautiful open field that hosts such fun events as the Easter Egg Hunt.</p> <p>I like how it's peaceful and quiet there and how it's also in downtown. It also has a very cool statue of the kids palying around that I like.</p> <p>It is cute and has a nice bench and nice shade from the trees.</p>
	<p>I like the sculptures of the kids.</p>

Describe something you would like to see changed or added to the park.

I would like to see more excitement in the play structures because these structures are not very original.

I would like there to be more trees or awnings to provide more shade. Also, my parents say parking is hard.

I like the park as it is and I don't think anything needs to be added.

I would like to see the community center building upgraded and renovated.

I think there should be more than grass, basketball courts, and playgrounds.

I would like to see the ropes at the climbing rocks tightened. When I went to Heritage Oaks Park, the ropes were very slacked. This made it hard to cross the ropes.

I would like to see more concrete and a warning cable on the rocks for little kids.

Put the play areas closer.

I would like some concrete added to ride my scooter or skate board.

A sea saw and spinner.

I would like to have the little kid playground a bigger and better structure. The playground should be bigger so the rocks are not the only big attraction.

I wish the playground wasn't filled with tan bark.

More shaded areas.

The exercise area in the back is not very nice. It is dirty and old too.

I would like to have basketball court added.

I would like to construction of baseball courts near the large soccer field. This will allow for more people within Los Altos to come over to the park and use it a s a place to practice more sports and even schedule team games and practices for certain organizations.

I wish that they could install some basketball hoops or a tennis court.

Shared use ? community center. LA school improved community use cehter with better use of space.

Swings and a bigger play structure.

I am sad that I am too big for the playgrounds - adding a bigger kid play structure / area would be nice.

It should have more advanced play structures.

I would like the doors to open and close.

There is no playground or other things to do.

Water fountain should be added.

I would like to see the implementation of drinking fountains along the park. I am a part of the Los Altos High School cross country team and one of the main practice spots is Lincoln Park. But when the weather heats up one of the major issue is people becoming thirsty and overheated from the sun while at park.

I would like there to be a bathroom put in the park.

Not much aside ? a strip of shady grass!

Other things to play.

It is a narrow piece of land but it would be nice to have a play structure or more things that invite people to go there.

I would like to have more attractions to play on.

I would like to see may ne one or two slides with different designs ex: windy slides, straight slides.

I think they should make the rock attractions bigger. They should be bigger so that there is more to play with.

I would like to see the play structure have more excitement because the small climbing wall had more excitement than the playground.

I wouldn't change anything.

A shorter distance between the playgrounds.

It's good the way it is.

I would like to see a more prominent sign put in place for McKenzie Park which will direct other citizens to the location of the park.

Monkey bars.

The park is sort of hidden so is not as used as it could be. Adding clearer places to park to get to the main part of the park would help.

I would like to have more tire swings so that more kids can play on them.

I would like to see a play structure for kids about 7 - 12 because when we went, we had nothing to do.

Montclair Park is nice already.

I think the baby swings should be lower to the ground. They should be lower because the little kids can fall and hurt themself.

Open up trails.

A playground.

Make it more of a playground.

I would like to see bathrooms added to Redwood Grove.

Maybe make it more like a park with a playground.

I would like to see a larger sign being built for University Avenue which would direct people to the park. Restrooms should also be built to make one's visit to the park more pleasurable.

I really like Redwood Grove and don't think that anything should be changed. But I think that they should have a portable restroom there. I will also like a water fountain or a place to fill up your water bottle.

I wish it were bigger or could connect to Shoup Park, but that may not be possible.

I would like the material to be a little less hot because it hurt when we climbed the structure, it hurt my hands.

A water fountain close to the soccer field.

The baseball diamond and the dugout should be upgraded.

More concrete for riding my scooter.

I would like to have a more accessible pathway paved connecting Covington Elementary School along with an established bike path / walkway that outlines the park.

More shady areas on field - playground. We feel would be a good space for a school too.

A bigger play structure with a spinner.

There isn't much to do there other than soccer games. More shade (trees) and a playground would make it more interesting.

I would like to see some more slides to play on.

I would like the walk paths to be bigger --> bikers and walkers don't have enough space.

Nothing.

Make the smaller playground bigger.

It gets crowded because so many people go there.

It is very easy to miss the sign on the main road. The sign should be more visible.

More concrete so I can ride my skate board or scooter.

I would like to have a more prominent sign placed in front of the entry way and accessible restrooms to the public.

I don't have any complaints about this park. It's great. So I don't think that anything should be changed or added.

Great park - a true treasure!

A spinner and wave.

I would add a four square court! I would also add a safe trampoline at the play structure for big kids.

I would like to see more sand to play in.

I wish there was more at this park.

There is a not a lot of things to do there.

I hope for the Village Park to have a fence built on the side next to the Bus Barn Theater building and a paved path from the library parking lot.

I don't think of anything that needs to be changed or added to this park.

I would love to add a play structure for kids, so more people will go there.

It should have more exciting structures.
