AGENDA ITEM # 3

TO: Parks & Recreation Commission
FROM: Manuel A. Hernandez, Commission Liaison
SUBJECT: Parks Plan Review Road Map

BACKGROUND

To aid in preparing for future recommendations and Capital Improvements Program prioritization, the Parks and Recreation Commission will review the current Parks Plan.

DISCUSSION

To help the Parks and Recreation Commission better understand the Parks Plan and guide discussion for the Fiscal Year 2019/2020 Capital Improvements Program discussion that will take place in spring 2019, the Commission will review and discuss sections of the Parks Plan over the next several meetings. This review will cover each park and areas of park land in Los Altos. At the end of this review, the Commission will have a better idea of what park improvements might be needed and how to best prioritize them.

Staff will explain how this review will be broken up over the coming months. It is recommended that the Commission prepare for each meeting by going over the applicable Parks Plan section to be discussed and make any site visits that they find necessary.
