AGENDA ITEM # 2

**TO:** Parks & Recreation Commission  
**FROM:** Manuel A. Hernandez, Commission Liaison  
**SUBJECT:** Dog Park Sub-Committee Update

---

## **BACKGROUND**

The Dog Park sub-committee is tasked by the Parks and Recreation Commission to look into options for a dog park, in addition to other possible dog activities in the City of Los Altos.

## **DISCUSSION**

The Dog Park Sub-committee met on Friday, January 04 at McKenzie Park to look at and discuss the possibility of recommending a fenced-in dog park at this location. The discussion was about if a dog park could work in the front portion of McKenzie Park between the tennis courts and Fremont Ave. This area currently contains benches tables and a climbing play structure and is separated from the large green space and children's play structures that are located on the other side of the City Maintenance Services yard.

The Commission will receive the sub-committee update on their discussions and possibly make a motion on recommendation.
